

## Bicycle Cellar

This is the entrance to the underground garage, where the lockable bicycle cellar is also located.

The **key for the garage gate** is located inside your apartment, next to the wall board in the hallway. You can find out how to access your apartment and get the key in your guest guide under the "**Access**" tab.

You can open the door to the underground garage using this key. The lockable bicycle cellar is located immediately on the **left side** behind the roller gate.
